

## ***TASK ORDER***

Contract Number: 070408

GL/Project Number: 10-70-6005-0000-00

Task Number: 2017-03

**Consultant Name:** Resource Data, Inc.

**Project Manager:** Jennifer Radcliff

**Scope of Work:** Analysis was performed and requirements were gathered for the tools listed below. Using the analysis of the listed tools and requirements, the consultant will provide a list of options outlining the most effective ways to provide the functionality currently provided by each required tool, along with a description and a cost estimate for each option.

- Special Events
- Map Feedback
- Custom search
- Camera Integration
- Live Data integration (AIS, weather)
- Vessel Search
- Site Redirector

**Rate Structure:** Task / Day / Hour (circle one)  
Per Current Rate Sheet

**Project Estimate:** \$5,450

**Deliverables:** Consultant will deliver the following:

- A list of options or tools outlining the most effective ways to provide the functionality currently provided by each required tool, along with a description and a cost estimate for each option

**Assumptions:**

- The project will begin on or before 9/13/2017.
- A draft list of options will be delivered by 10/30/2017.
- The project will be completed by 12/31/2017.
- The Port will provide the results of the analysis and requirements gathering to the Consultant.
- The Port will provide access to PortView.
- The Port plans to keep Geocortex for the long term, and also has Portal for ArcGIS and ArcGIS Online as available tools.
- Any remaining funds after project completion will be returned to the contract to be issued to future task orders.
